JCR Develops New Position/Division to Better Serve Insurance Carriers

ROLLING MEADOWS, IL (December 11, 2009) -- J.C. Restoration, Inc. announces the launch of new Claims Management Division, naming Joel Hossli as Director. This new division developed out of an increased awareness that insurance adjusters are in need of a dedicated ally on the vendor side, who they can work with throughout the property claims process. This would include performing joint loss inspections and scoping, estimate preparation, reserve documentation and consulting.

Hossli joined J.C. Restoration in August of 2008 as the Director of Marketing after over a decade in the insurance industry. His prior experience as Property Adjuster for a national insurance carrier made Hossli the ideal choice for developing the new Claims Management Division. In this new role, Hossli will act as a dedicated point of contact for the insurance adjuster, providing better communications and efficiency on all property losses. "The true goal of customer service is to understand the customer's needs; this dedicated position allows us to properly serve the adjuster as well as the end user of our services" states Steve Rost, General Manager of J.C. Restoration.
