## Professional Remodeler Magazine Names Warner Cruz 2009 Young Leader

OAK BROOK IL (March 2008) -- The January 2009 issue of *Professional Remodeler* magazine selected twelve, under-40 professionals whose vision and business innovation will be shaping the remodeling industry for the next decade. Warner Cruz, President of J.C. Restoration, Inc., was named as one of the honorees.

Among the various criteria considered, Warner was chosen as a Young Leader because he "has taken his father's small restoration firm and built it into a \$15 million national company in only eight years while improving employee benefits and devoting considerable time and resources to charity."

Warner shared the spotlight with nine men and two women from across the nation, however he was the only member of the disaster restoration industry to receive the honor.
